**State of Alaska Import Requirements, April 2015**

## **POULTRY, HATCHING EGGS OR LIVE BIRDS**

**All Poultry, Hatching eggs and Live birds imported into the state must be accompanied by a permit and a health certificate which includes certification that:**

- (1) The flock has tested negative for Pullorum and Typhoid disease; (Test results are only good for 30 days)  
or  
Poultry or eggs were produced in compliance with NPIP;  
described in 9 CFR, Section 445-447.**
- (2) Premises is not under state or federal restriction.**
- (3) The applicable National Poultry Improvement Plan forms must accompany the shipment**
- (4) A permit number can be obtained by calling (907) 375-8215. All test must be run and have negative results before the permit is issued.**

**(Poultry is defined as chickens, turkeys, ratities (flightless birds), waterfowl, game birds, pigeons, doves, and other domestic fowl)**

### **Canadian Imports: (800) 442-2342**

Please inform people that they need to wait through all recordings, follow instructions, and when a human answers, they need to ask for animal imports.
